ARIA FLUTED

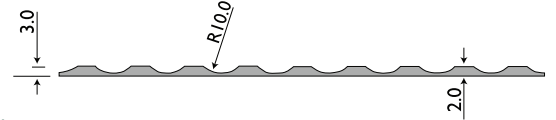

FLUTED CONCRETE PANELS

ARIA FLUTED redefines interior surfaces with a refined fusion of artistry and architecture. These fluted concrete panels bring depth, texture, and movement to walls and millwork through dynamic 3D wavy and ridged patterns that balance modern design with timeless appeal. Available in eight distinct patterns ranging from subtle ripples to bold waves, Aria Fluted also offers curved panel options for flowing, organic forms, along with edge finishing for a clean, polished result that elevates any space.
